

We are your expert technology partner for seamlessly embedding intelligent sensing into the core of your products.

With expertise in flexible electronics and scalable manufacturing, we provide reliable, confidential solutions to bring your vision to life - from concept to volume production.

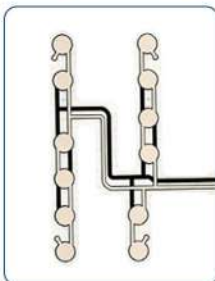

Product Description

Smart Surfaces & Sensing Solutions

We provide end-to-end customized solutions for advanced printed electronics and flexible sensing technologies, enabling intelligent interaction and precise monitoring across various surfaces.

Core Products

- Printed Sensors
- Smart Textile Sensors
- Printed Electrodes/Circuits
- In-Mold Electronics (IME)
- Medical Wearable Patches

Applications

- Control Panels
- Smart Furniture
- Health Monitors
- Sportswear
- Industrial Surfaces
- Touch Interfaces
